Gov. Martin To Attend Ceremony

Hon. C. Martin, Governor of the State of Washington, interviewed in Olympia last week on behalf of the Fraser Valley Scenic Loop Association, promises to attend the "international amity" ceremony planned for June at Huntingdon-Sumas.

"If Premier Pattullo will designate a date convenient to him, I will endeavor to arrange my calendar to meet him on the day you set for your ceremony," Governor Martin informed Gerald Heller of Abbotsford, a member of the Loop Highway ceremony committee.

Governor Martin plans to have Lacey Murrow, director of highways for the State of Washington, accompany him to Abbotsford. Plans for the international function, as outlined to the Hon. Mr. Martin by Mr. Heller, won the governor's interest. "I shall anticipate with pleasure," he said, "again meeting Premier Pattullo, and if possible, proceeding to Harrison Hot Springs with him," he stated. Director Lacey anticipates meeting Hon. R. W. McPherson, provincial minister of public works, when he visits Abbotsford.

Present Three One-Act Plays In Auditorium

Enjoyable entertainment is promised on Monday evening when Abbotsford Community Theatre presents its first Production Night. Three one-act plays will be offered; a fantasy, a comedy and a farce. They are: "The Maker of Dreams," which will be directed by Miss E. Piggett; and "At the Bathroom Door," directed by Miss Cherry Bond.

Characters appearing in these three productions include: Miss Lehman, Mr. Thomas Hazlett, Dr. F. Quinn, Mr. H. Henderson, Mr. Guy Jones, Miss Agnes Olund, Miss Lila King, Mr. Douglas Morris, Miss Gwen Callicott, Mrs. Buker, Mr. Cyril Bennett Mr. Murray Ralston.

The plays will be staged in the auditorium of the Philip Sheffield high school, Abbotsford and the curtain will rise at 8:15 p. m.

MORE TRAFFIC VIOLATIONS IN SUMAS DISTRICT

Sumas Police Court heard several more charges under the highway regulations when Magistrate J. W. Winson presided over the week-end session on Friday.

Leo Kesmick of Huntingdon pleaded guilty to a charge preferred by Constable Lindsay of the Highway Patrol, Chilliwack, of not possessing a chauffeur's license. He was fined \$5 and costs.

Apprehended by Constable Morris of the Highway Patrol, Abbotsford, Thos. W. Mills of Vancouver pleaded guilty to a charge of not possessing a driver's license and was fined \$5 and costs.

Failure to display a Carrier's license even though same had been procured resulted in suspended sentence plus court costs for Terminal City Cartage, Vancouver. The charge was laid by Constable Morris and Lindsay.

Police warnings are being given to both school children and older persons that damage to road signs and mail boxes is a serious offense. Constable Helmsing is personally warning the school children in his district. He is also checking up on the dog licenses in Sumas, the period of grace having expired.

Social Enjoyed by Parents and Teachers At North Poplar

On Wednesday evening, March 9, an enjoyable social time was spent by parents, friends and teachers of this area. The gathering took place in the North Poplar school with Miss A. Olund in charge. Miss J. Tebbutt gave a short talk on the primary education, which was followed by contributions from the following: Mrs. J. Trusler and Mrs. Matthews, piano; Mr. J. Jansen, mandolin; Mr. Derling, guitar; Mr. and Mrs. G. Busby, vocal. Community singing, led by Mr. Wickett, was enjoyed during the refreshment hour.

The association of the parents and teachers is not the orthodox P.T.A., as it is not officered nor affiliated, but gatherings such as the above are held to promote better acquaintance between those concerned with the welfare and education of the children. Meetings are held every month for this purpose.

Mr. and Mrs. H. S. Andrews, hosts for the initial time in their lovely new home when they entertained friends to bridge on Wednesday and Friday evenings of last week. Prize winners the first evening were Mrs. J. Lawrence with high score and Mr. Frank McCallum, consolation. On Friday evening the winners were Mrs. F. McCallum, first and Mrs. M. M. Shore. On Tuesday evening Mrs. Andrews was again hostess, this time to members of the bridge club.

W.I. Appeals On Behalf of Children

Discovery by the Public Health Nurses that nearly fifty children in the schools of this district are suffering from defective vision has aroused the sympathy and interest of the Women's Institute.

Of the forty-five children suffering from defective vision at least twenty-two have eyesight so seriously impaired that, the Institute points out, their whole lives may be handicapped unless they are given the necessary treatment now and provided with correct glasses.

In a circular letter drawing this condition to the attention of persons and organizations whom the Institute believes will assist raise a fund to defray the cost of treatment and glasses, the Institute states: "The parents of these children are unable to meet the costs of treatment and it is to help these children and equip them to take their places as Canadian citizens of the future that we are launching this appeal for funds. All donations will be gratefully received and acknowledgement made in the local press."

Donations may be addressed to Mrs. O. H. Heywood, R. R. 1, Abbotsford or to Miss E. Maguire, Public Health Nurse, Abbotsford B. C.

B.C. Movies Thrill Big Audience

Even native-born British Columbians were thrilled by the moving pictures of the scenic beauties, fish and game attractions and natural resources of the province presented in the Masonic Hall on Monday evening. The pictures, all in natural color, were shown by Alfred E. Booth of Travel Films, who, as commentator, demonstrated an intimate knowledge of the Interior of the province, which enabled him to make the pictures doubly interesting to the gathering.

A large audience which responded to the invitation of the Abbotsford and District Board of Trade, under whose auspices the pictures were shown, traversed the Fraser Valley, Bridge River country, Ashcroft-Paul Lake and Kamloops area and visited the Revelstoke and the Big Bend country in a two-hour screen trip made by plane, pack and saddle-horse, launch, auto and truck. In this way they secured a first-hand view of activities in British Columbia that have only been newspaper and magazine stories to a majority of the public.

At the conclusion of the programme of some twelve reels of film, Mr. M. J. Carey of Travel Films explained the tourist attraction purposes of the films and announced that, with the co-operation of Fraser Valley boards of trade, businessmen and citizens they proposed to make a similar film of the tourist attractions of the valley.

This would be done both by land and air. The film would be shown free first at the Vancouver Exhibition, later to valley audiences and subsequently to audiences farther afield. A hearty vote of thanks was accorded Mr. Booth and Mr. Carey by the audience and President Benedict, on behalf of the board of trade, assured them of this district's interest and co-operation.

The visitors, officers of the board and of the International Loop Highway Association were later entertained by Mr. and Mrs. Benedict at their home.

Mrs. Dorothy Steeves, M. L. A., will be the speaker at a public meeting to be held in the Orange Hall on Thursday, March 31, at 8 p. m. under the auspices of the District Council, C. C. F.

Came Here Over Fifty Years Ago

Stricken suddenly in the early hours of Sunday morning, March 20, there passed away at her home in New Westminster a pioneer woman of the Sumas district, who came to Abbotsford more than half a century ago. Mrs. Flora Bertha Fadden, wife of W. H. Fadden of New Westminster was one of the most active pioneer women of the Fraser Valley and her passing is the subject of wide regret in this community.

Born in Nova Scotia, the late Mrs. Fadden was 68 years of age, and was a vigorous and active woman almost to the hour of her death. She had been downtown in New Westminster shopping on the Saturday afternoon and appeared well and in good spirits.

Mrs. Fadden is survived by her husband in New Westminster, one daughter, Mrs. J. L. Starr, Delair road, Sumas Prairie; four sons, Angus G. Fadden, chief collector of customs, New Westminster; Winford G. Fadden, Whatcom road, Upper Sumas; George W. Fadden, Straiton road; and R. S. Fadden, Modesto, California. She is also survived by six sisters, Mrs. W. L. Johnston, Vancouver; Mrs. Peter Peebles, New Westminster; Mrs. A. E. Campbell, Mrs. J. T. C. Williams, Mrs. C. Hill-ton, Vancouver and Mrs. W. Beatty Nova Scotia; and by two brothers, George Grant, Tokyo, Japan and Allan P. Grant, government agent at New Westminster.

Mrs. Fadden was very public-spirited and was probably best known for her work on behalf of the Women's Institute. Instrumental in forming the Sumas Women's Institute, of which she was president, Mrs. Fadden also served as president of the Fraser Valley District Women's Institute and a member of the advisory board for British Columbia. In many other spheres of community service and welfare work she was also untiring. The funeral service will be held at 2 o'clock on Thursday afternoon from Whatcom road Baptist church. Interment will take place in Musselwhite cemetery.

Handicraft Exhibit Friday

An invitation is extended to the public to visit the Abbotsford High School on Friday evening and witness the work of the adult handicraft classes.

Last year there was a display of the work done by the classes but the exhibition planned for Friday evening will probably prove far more interesting as the public will be able to see the actual work being done. Work completed by the classes of this area will also be on exhibit.

Classes in operation and work to be seen in process and completed will be representative of basketry, pottery, weaving, sewing, woodwork and metalwork. The visiting hours will be between 7.30 and 10 p.m.

POLICE CHECKING ON TOBACCO SALES TO JUVENILES

Following complaints police are warning local tobacco dealers that anyone selling tobacco, cigarettes or papers to youths under the age of sixteen are liable to prosecution. The tobacco restraint act provides for a penalty of \$10 on first offense, \$25 for second offense and \$100 for third offense.

The act provides that the penalty will be imposed on any one who, "directly or indirectly, sells, gives or furnishes to a person under the age of 16," tobacco in any form "whether for his own use or not."

Spectacular Accident at Hop Yards

Several police charges have resulted from a spectacular auto accident which occurred on the Atkinson road, Upper Sumas, on Sunday afternoon. Principal sufferers, to date, have been the Canadian Hop Growers, Ltd., whose water system was wrecked by the incident and the several families dependant on the water supply.

The accident occurred about four o'clock in the afternoon when a borrowed 1935 sedan car driven by Jack Thompson, an Indian from the Sumas Nicomen Reserve, got out of control. It missed by a scant six inches a B.C.E.R. power pole carrying three transformers, and struck the end of the pumphouse of the Canadian Hop Growers Ltd. It tore this wall out and then took the sidewalk in its stride, boards flying in all directions. The car ended its mad career practically upside down in four feet of water in a ditch on the wrong side of the road. Damage to the pumphouse is estimated at \$150 and the car was badly wrecked.

David Charles, Indian from the Seabird Reserve, Popcum, a passenger in the car, appeared in Sumas police court and pleaded guilty to a charge under the Indian Act of being intoxicated. He was fined \$5 and costs.

At a late hour Tuesday night, Jack Thompson, alleged driver of the car, was still at liberty. A warrant has been issued for his arrest on a charge of driving to the common danger.

As a sequel to the affair a charge of keeping liquor for sale was laid against Frank Steger, Sumas Prairie and when he appeared before Magistrate J. W. Winson on Tuesday the case was remanded at the request of Provincial Constable Helmsing appearing for the prosecution.

The car involved in the accident is said to have been one borrowed from Francis Penner of Sardis, a donkey engineer for the Vedder Logging Co.

Annual Smoker Tuesday

An entertaining programme interspersed with but one or two "remarks" (not speeches) has been arranged for the annual smoker of the Abbotsford Board of Trade. This event will take place in the Orange Hall on Tuesday, March 29, at 8 p.m.

Principal officers of each of the Fraser Valley boards have been invited and an attendance of about 200 men is anticipated, according to an announcement by Harry Thomas and Harry Beeststone at the Board meeting on Monday night.

Les Ayres, M. L. A. and E. D. Barrow of Chilliwack have been invited to give the principal "remarks" during the evening. Music, songs, recitations, skits, community singing and other items will make up a varied programme. The refreshments arranged for the event are reported to be equally varied and interesting.

SPEEDING RESULTS IN CONVICTIONS IN ABBOTSFORD COURT

A warning to local motorists is contained in two convictions in Abbotsford Police Court over the week-end. A Mission motorist was fined \$250 and costs by Magistrate G. F. Pratt on a charge of speeding through a school zone and a Chilliwack resident was fined \$10 and costs for speeding on the main street in Abbotsford.

Seek Grants for Proposed Hall Building

A meeting of the committees named by the Abbotsford Ratepayers' Association and Abbotsford District Board of Trade to look into the possibilities of erecting a new community centre in Abbotsford was held in the Men's Club on Thursday evening. J. S. Daly presided and Alvin Webb acted as secretary. There was a good representation from both organizations.

It was decided to interview the Abbotsford Commissioners and also the Central Valley Fair Board and the Provincial Government with a view to possible grants to assist the project. It is believed the government would be interested through provision of improved facilities for the Central Valley Fair. Named to this committee were: E. Hunt, D. Willan, F. Marshall, James Lawrence, Harvey Henderson, J. S. Daly and A. Webb.

It was decided to extend an invitation to all organizations in Abbotsford to send representatives to a meeting to be held at a future date when some further data is available for presentation.

Irish Social Success

Mr. T. W. Hall, director of education, Abbotsford area, as guest speaker at the time-honored Saint Patrick's social and entertainment held by the Trinity United Church Ladies' Aid at the home of Mrs. Hannah Fraser on the evening of March 17. Rev. Angus Cameron was chairman and the oration to the Patron Saint was delivered by Rev. J. Donaldson of Clayburn.

The programme included: an instrumental number by Miss Peggy Anderson; solo by Miss Joyce Berry; recitation by Mrs. Ryall; song by Miss McLeod; duet by Douglas Anderson and Gordon Harvey; song, Miss Dorothy Beck; accordion music Mr. Greyell; Irish jig, Misses Marjorie Fraser, Vivian Golos, Eva Hay and Dorothy Parsons.

Instrumental numbers were rendered by Miss Janet Golos and Miss Blatchford and songs by Mrs. W. Coutts, Miss Effie Roberts, Miss J. McLeod and Mr. Leslie and a recitation by Miss Margaret Fraser.

With an attendance of about 100 persons, the affair was a complete success both socially and financially.

Scenic Loop Body Meet On Monday

A meeting of representatives from the member organizations of the International Loop Highway Association will take place in Sumas City, Wash., on Monday, March 28, at 8 p.m. On this occasion the delegates will be the guests of the Sumas Lions Club.

It is expected there will be a full representation from Boards of Trade on both sides of the Fraser river from Maple Ridge to Agassiz-Harrison. Progress on the publicity plans will be reported and it is probable that the meeting will elect permanent officers on this occasion. It has functioned to date with the provisional officers originally appointed.

The committee making preliminary arrangements for the International Ceremony planned for June has also made progress and will have tentative programme to announce.

Mr. William Rand of Vancouver was a business visitor in Abbotsford on Monday.

Mrs. P. H. Bartindale of Rosedale was the week-end guest of her mother, Mrs. O. W. Benedict.

Charter Meeting of Old Timers

Old timers of the Abbotsford, Sumas and Matsqui area will meet in the Masonic Hall, Abbotsford on Thursday, March 24, at 8 p.m.

This meeting is being held for the purpose of completing organization of an A.-S.-M. Old Timers' Association as decided upon at the meeting held two weeks ago under Board of Trade auspices.

There was a representative attendance of old timers present on that occasion, and they were unanimously in favor of forming an association for social and community service reasons. They favored deferring the actual organization in order that a greater number might enjoy the privilege of becoming charter members. All those attending on Thursday night and wishing to participate will have this privilege.

Membership and constitution committees were appointed at the preliminary meeting and these will report on Thursday night and matters pertaining to years of residence necessary to be eligible and similar details will be dealt with on this occasion.

Students and Stores Present Fashion Parade

With the co-operation of ladies' wear stores, namely V. C. Stordy, J. S. Daly and the Singer Store, the Girls' League of the Philip Sheffield High School, Abbotsford, presented a successful tea and fashion parade in the school auditorium on March 17th.

An innovation in school activities, the fashion parade provided a preview of the forthcoming spring styles in dresses, coats, hats, hosiery and accessories. The members of the League modelled the apparel which was loaned by the stores, and they were warmly complimented for their efficient work by Miss McLennigan, provincial supervisor of economics, patroness for the affair.

For the tea the Irish flavor of the date provided a motif pleasingly incorporated in the decoration of the tables and the costumes of the servers. Student activities will be benefitted through the financial success of the affair.

PUBLIC MEETING TO DISCUSS COLD STORAGE PROJECT

Persons interested in the establishment in this district of a cold storage plant of the locker type are invited to attend a public meeting in the Masonic Hall, Abbotsford, on Thursday, March 31, at 8 p.m. The meeting is being held under the auspices of the Sumas Co-operative association which instigated interest in this project recently. It is being held for the purpose of explaining in detail the benefits and operation of such facilities, their success in other similar districts and the probable cost of establishing and operating a plant here.

On Thursday a party of eight men visited a plant recently installed at Sedro-Woolley, Wash., and received much the same encouraging information as obtained at other centres visited: that the locker type of cold storage plant is filling a long felt need and proving popular and practical. The plant at Sedro-Woolley has been in operation about six months and has a capacity of about 500 lockers. It occupies a two-story building above ground. Representatives of both American and Canadian refrigeration machinery companies were present to give technical information. Making the trip were: Messrs L. Caldecott, J. S. Daly, O. W. Benedict, R. Gram, A. Keeping, J. Hunter, E. S. Plaxton, E. Boley. Data obtained at Sedro-Woolley, Lynden, Vancouver and other places will be made available to the meeting on Thursday evening, March 31.

Mrs. F. Rudge entertained at three tables of bridge on Tuesday evening, honoring the birthday of her son, Glen and her niece Miss V. Rudge, prior to the departure of her husband and brother, Mr. Jack Stapleton. The two latter gentlemen leave early in April for the north, where they will be engaged in Cannery operations.

FINE ENTERTAINMENT BILLED AT THEATRE

Two excellent screen programmes are billed at the Abbotsford Theatre this week and next week.

On Friday and Saturday, with a matinee on Saturday afternoon, a new technicolor feature, "Vogues of 1938," will be presented. It stars Warner Baxter and Joan Bennett.

A film that will thrill both old and young, the former with action and the latter with its historic interest, come to the Abbotsford screen on Wednesday and Thursday, March 30 and 31. This is "Wells Fargo," the title alone conveying too much to need any description of the picture.

Trade Board Agenda Covers Many Activities

Membership total of the Abbotsford and District Board of Trade was brought to approximately the eighty mark and satisfactory progress reports from a number of committees were received when the monthly meeting was held in the Masonic Hall on Monday night.

There was a good attendance of members at the business session between 8 and 9 p.m. and a large response by the public to view the moving pictures of British Columbia shown by A. E. Booth of Travel Films.

Old Timers' Association

Gratification was expressed at the decision of old timers of the A.S.M. district to form an association. Angus Campbell and G. H. Heller reported this result of a meeting held under board of trade auspices.

The Warble Fly

A. T. Clausen urged efforts be made to include this area in the campaign to eradicate the warble fly among dairy herds in the valley. President Benedict assured him that the board would gladly co-

operate. Scenic Loop Highway

Progress reports on the efforts of the International Loop Highway Association were made by Mr. Harry Beeststone, Mr. G. H. Heller and Mr. Lang. Sands. The sum of \$10 was voted to assist the association in its publicity work. Mr. Heller, expecting to be away for some time, asked to be relieved of his board duties. Appreciation of Mr. Heller's activities on behalf of the board and highway association was expressed by Angus Campbell and President Benedict for the meeting. Mr. H. S. Andrews agreed to act on the committee.

An Auction Mart

E. S. Plaxton and C. Twiss spoke briefly on efforts to promote an auction mart. J. Murchison of Cloverdale expressed interest in the proposal.

Community Hall

J. S. Daly reported progress on the community hall committee, as elsewhere reported.

Old Age Pensions

Messrs. Morrison and Pihl reported drafting a resolution, as request-

ed by the last meeting, advocating lowering of the old age pension age minimum, and Secretary M. M. Shore stated it had been forwarded to the associated boards.

To Attend Sessions

Messrs. Campbell, Pihl, Andrews and Benedict intimated their intention to attend the annual meeting of Associated Boards of Trade of the Fraser Valley on Thursday.

Prairie Hay Shipments

H. J. Barber, M.P., Chilliwack, wrote pointing out that Ontario farmers had received a \$17.50 delivered price for hay to the prairie drought areas and B.C. only \$16 a ton. He expressed regret opportunity had not been provided to equalize this price. The meeting instructed a letter of thanks for Mr. Barber's interest be sent in answer.

Request for Donations

Requests for donations from the board toward the Central Valley Badminton Championships and a fund for glasses for children with defective eyesight were received. It was decided to advise both committees that, while the board was

unable to contribute, individual members would probably be in a position to do so.

New Members

J. S. Daly announced three new members: E. Boley, Ira Serl and M. J. Nelles. One new member was reported by H. S. Andrews: Roy Crist of Matsqui.

School Busses

Several members favored a suggestion by Mr. Price that motor traffic passing school busses should be more strictly regulated. This was referred to the highway committee with power to act in making recommendations to the authorities.

Yellow Centre Strip

Associated Boards will be asked to press for continuation of the painting of a yellow centre strip on the highway from Abbotsford to Chilliwack and also for the improvement of the highway between Huntingdon and Mission City.

Mail Route Petition

At the request of Mr. M. Pihl the meeting endorsed a petition for the extension of Rural Mail Route No. 1, Aldergrove.

WORLD HAPPENINGS BRIEFLY TOLD

King George and Queen Elizabeth have accepted an invitation from the French government to visit France in June, it was officially announced.

Small metal stars and anchors on doors of residences throughout Japan since the war in China started indicate the family's son or father is fighting with the army or navy.

Exemption from municipal taxation of \$21,600,000 worth of Dominion-owned property was protested by the city of Halifax in a brief to be presented to the Rowell commission.

Quebec will increase its provincial traffic police from 220 to 300 members by next May in an effort to reduce its accident rate by 50 per cent.

Chinese sources asserted United States volunteer pilots were taking important parts in China's attempts to rebuild her air defences against Japanese invasion.

A British Columbia government program which would absorb all British Columbia employables for the next 10 years was announced in Vancouver by Premier T. D. Pattullo.

The Royal Naval Film Corporation with the Duke of Kent its patron, is being formed with the object of supplying up-to-date cinema entertainment for officers and men serving in seagoing navy ships.

Carl B. Squier, sales manager for Lockheed Aircraft, Los Angeles, announced his company had signed an order amounting to \$742,000 with Trans-Canada Air Lines for six model 14 transport planes.

Dr. Francis G. Pease, 57, pioneer Mount Wilson astronomer, died at Pasadena, Cal. Dr. Pease was the first man to measure the diameter of a star. His research resulted in the 200-inch telescope now being readied for Palomar mountain.

ALICE STEVENS' RECIPES

GOOD BOOKS AND PICTURES HELP CHILD'S DEVELOPMENT

A two-year-old child usually enjoys picture-books and the simplest story books about objects and events in his every-day life. He likes books about airplanes, engines, cars, boats and children.

A four-year-old child still likes picture books but he is hungry for stories, stories of his immediate experiences such as the working of the concrete mixer where the new sidewalk is being laid or the freezing of the ice-cream for supper.

A seven, eight or nine-year-old accepts and enjoys fairy tales and also true stories that have vigor and achievement. At this age, he usually knows that in the real world beasts do not talk and gingerbread boys do not jump out of the pan and run away.

Children's books should be beautifully written and illustrated and attractive as to paper, print and binding. They should be substantial enough to stand the wear and tear of handling.

Pictures of animals, of children, of Madonnas and pictures which tell a story are enjoyed by children as permanent pictures.

Add corn syrup to candy to prevent it going grainy.

Use very few spices and flavorings in cooking apples. Try to develop the natural flavor of the apples.

One teaspoon soda and two teaspoons cream of tartar equal four teaspoons baking powder.

Readers are invited to write to Alice Stevens' Home Service for free advice on home cooking and household problems. Address letters to Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

FLIN FLON

"The Story of Its Finding and Position To-day"

By PRATT KUHN

Continuing the story of Island Falls where the electric power comes from.

The thing that interested me, however, was the conquering of the wild, the erection of 356 steel towers carrying power 60 miles, and the line patrolmen who live with their families at mile 13 and mile 38. These men walk steadily, examining the conditions of wires, posts, possible dangerous fires, etc., and report by telephone from one of the eight telephones on the route. Occasionally they can hitch-hike a ride on a boat going down the lakes and walk back.

At mile 13 a wood pole, single circuit, aluminum cable line 40 miles long taps off through air-brake switches to feed the Sherritt-Gordon mines.

I asked the patrolmen, both of whom I met by good luck, if they weren't lonely, but mile 13 is close enough to Flin Flon to have visitors, and at mile 38 they are lonely only in summer, while in winter they feed teamsters twice a day—men hauling supplies to Island Falls over the ice.

This supply business is mighty important because you can't run down to the corner store for something forgotten, and you must have a year's supply on hand at all times.

In winter, then, about 200 tons, valued at \$30,000 to \$50,000 of stock and provisions are hauled in and stored in warehouses for non-perishable food stuffs. There is a heated room for the storage of freezable foods, and an ammonia refrigerating plant maintains cold storage for packing house provisions.

Believe me, I ate beef in July that had been brought in the previous December and it was better than you'd buy in the city, because every chop, roast, chicken, etc., is government inspected then wrapped separately in cellophane, quick frozen and kept that way till the housewife gets it.

The company store is excellently laid out, and carries every good branded line of drugs, cosmetics, canned goods, silk stockings, etc., and marvellous to relate, sells at less than city prices, despite the cost of hauling and storage.

Some part of the stock consisted of unknown lines to me, but was for trading with the Indians a town of Crees (Roman Catholics) being established on the mainland three miles away, whose men folk do logging and brush work around the properties. There are about 30 employed, and who are entitled to buy at the company store at the same prices the white residents pay. This is some difference to the way it used to be when the Indian was fair game for the white trader. However, all through my studies I was deeply impressed with how the company went out of their way to treat employees fairly, and with the satisfaction expressed by the men and women workers both here and in Flin Flon.

Getting up to Island Falls from Flin Flon was easy. I took a taxi to Channing flying field, six miles out, stepped into an Arrow Airways plane with Jeff Home-Hav as pilot and in 40 minutes descended on the wharf. Getting back I wanted to see the water route, so started out at 8:45 a.m. from the store where all the passengers gather and walked to Sawdust Bay. There outboard motors were placed on two canoes, dunnage piled in and away we went with "Capt." J. M. Clark in charge, across Sandy Bay, 3 1/2 miles to a half mile portage at Muddy Lake, where a Linn tractor pulled a wagon with the freight, and passengers walked.

Built Big German Gun

Oswald Dimmoser, 63, university professor and engineer who constructed "Big Bertha" cannons of Great War fame, died recently in Baden, Austria. Big Bertha was the nickname of the German long-range gun, manufactured by the Krupp Arms Works, which in 1918 created a sensation by shelling Paris from the Forest of Coucy, at a range of 76 miles.

Molten zinc being poured into molds at Flin Flon. Man at right is levelling top. In left background are these 50-lb. zinc bars cooling off.

This is molten copper pouring from smelter converters. It will be carried from here by the overhead trolley to the casting machine. 1937 photo at Flin Flon mine, Manitoba.

Zinc slabs, glowing with heat, dumped from the molds. Men with tongs grab them one at a time and swing twenty onto a truck at Flin Flon.

The coconut palm, second most valuable tree in the world, originated in the Malay Archipelago. It has been cultivated for at least 3,000 years. The coconut and its kernel are its chief products.

"Did you say pills, miss?" the chemist asked the little girl. "Yes, please." "Antibiotics?" "No, but uncle is."

Every Newar girl of India is compelled to be "married" to the native bel fruit so that she will never be left a widow.

Chief of Amateur Fire Brigade: "You're late in getting here." Young Fireman: "I live a long way away."

A new German commercial airplane for 26 passengers is pronounced so safe that no lifebelts for passengers are necessary.

The catch from more than 2,134,700 lobster traps in use on Canada's coast last year had a marketed value of almost \$4,383,500.

SCENES AT RE-OPENING OF GENERAL MOTORS REGINA PLANT

Interesting ceremonies marked the re-opening of the \$2,200,000 Western plant of General Motors of Canada Limited at Regina recently when provincial and civic leaders joined in welcoming General Motors executives. The above illustrations show, upper row, from left to right: the assembly line in the plant following completion of the 700,000 modernization program; centre, the first 1938 car, a Chevrolet coach, made at the Regina factory. The keys of the car

were turned over to Hon. A. P. McNab, Lieutenant-Governor of Saskatchewan, by Harry J. Carmichael, vice-president and general manager of General Motors. His Honor then presented them to Mr. Justice W. M. Martin, president of the Saskatchewan Division of the Red Cross. In the foreground beside the car are Mr. Carmichael, Mr. Justice Martin and Mr. Justice Mackenzie. Another factory operation is shown in the third picture. Lower row portrays, first,

a group of workmen; centre, a scene at the Board of Trade dinner, the group comprising, from left to right, L. A. Thornton, president of the Regina Board of Trade; C. E. McTavish, general sales manager, General Motors Products of Canada Limited; Premier W. J. Patterson of Saskatchewan; and His Honor A. P. McNab. The third picture shows J. B. Highfield, general plant manager, General Motors, being interviewed during the broadcast of the proceedings.

Health LEAGUE of CANADA
presents
TOPICS of VITAL INTEREST
by **DR. J. W. S. McCULLOUGH**

ARTICLE No. 28

The Cancer Campaign

The campaign against cancer undertaken by the Canadian Medical Association, with the aid of the King's fund, recalls one of the same nature now being carried on in Belgium. In this connection the secretary of, and moving spirit, in the Belgium society for combating cancer, Doctor Schraenen, well-known to many in this country, declares that the object of the campaign in Belgium was to give the best possible treatment to the greatest number of patients at the earliest possible stage of the disease.

"In order to achieve this idea," says Dr. Schraenen, "the following demands must be met: The public should have a basic knowledge of the nature of cancer, know what methods existed for fighting it, and above all must be persuaded of the importance of their own co-operation in this struggle. The diagnosis of cancer," he went on to say, "must be so organized that the disease might be recognized as early as possible. Opportunities for suitable early treatment should be assured. For subsequent treatment there must be a service of supervision and also a 'social cancer welfare' organization devoting itself to the economic and psychological consequences of cancer for the patient and his family."

Dr. Schraenen pointed out that the measures required were the special scientific training of medical students in relation to cancer; a constant re-awakening of interest among practicing physicians, by means of courses on the subject, by post-graduate lectures; close co-operation between physicians and anti-cancer centres, in a word, by tackling the practical side of the question.

Belgium is well organized to cope with the cancer plague. The centres for diagnosis and treatment of cancer are among the best to be found in Europe. The organization for preventive work is not surpassed anywhere. In every phase of effort against cancer Canada can learn something from the heroic little Kingdom on the North Sea.

A Romantic Sea Career

Ship On India Run Has Plowed Waves For 23 Years

The beginning of the end of a romantic sea career was marked by the departure recently from Bombay of the oldest ship of the P. and O. fleet, the S.S. Kaiser-i-Hind. She has made no fewer than 104 runs from England to Bombay and "needs no steering; she can find her own way to and from Bombay," said her officers.

After one more voyage to China the ship will pass into the hands of ship-breakers. She has the proud distinction of having plowed the waves for 23 years and covered 1,508,581 miles, which is 4,319 miles short of 70 times round the world by sea.

Built for the Far Eastern service she was launched at Greenock Docks 48 days before the Great War broke out. She was commandeered to transport troops and after the Armistice was chartered to convey Australian troops home. Since then she has been on the India run. She has carried 55,000 passengers to and from Bombay.—Empire Press Union.

Interest Pays For Cake

Ceremony Originated By Actor Has Reached 144th Year

On a recent Thursday—Twelfth Night—the Baddeley Cake was cut at Drury Lane Theatre in London for the 144th year in succession. The ceremony was witnessed only by the management and the company appearing in the current play. Robert Baddeley, a pastry cook, who became an actor, left £100 in 1794, the interest to be used for the making of a cake to be eaten by the company at Drury Lane every Twelfth Night.

Men at Work? They Could Be!

Two weeks ago the A. S. & M. News published a news article under the caption, "Valley Builders Fail to Make use of Loan Plan." Briefly it stated that 278 loans aggregating about \$1,000,000 in value had been made in British Columbia since the inception several years ago of the Dominion Housing Act. Of these, only one loan had been granted in Abbotsford, four in Chilliwack, eight in New Westminster, three in Penticton, one in Vernon and 200 in Vancouver.

Since then, by telephone and personal call, the editor has been informed in no uncertain terms that Valley builders, rather prospective builders, have not failed to take advantage of the D. H. A. — they have been refused the opportunity to do so.

The news columns of the A-S. & M. News are for items believed to be of interest to the residents of the three municipalities it serves, Abbotsford, Sumas and Matsqui. The editorial column provides the editor with his opportunity to speak to or for these people. In this case he will endeavor to speak for them.

Without looking into painful history it is obvious that the D. H. A. was introduced for the purposes of stimulating employment directly and indirectly in many industries and relieving an acute housing shortage throughout the Dominion. This housing shortage was caused in a large degree by lack of confidence in this wealthy dominion on the part of agencies normally advancing funds for building.

The Dominion Government, instead of ordering, as in a dictator country, granted certain guarantees to recognized loaning agencies to bolster their confidence and to justify their accepting lower wages for their money than they had been accustomed. (The public had become accustomed for some time to lower or no wages for its available labor). In doing this the government apparently anticipated co-operation but must be disappointed, to say the least. (Two governments have been concerned in administering this Act).

From the first the loaning agencies have strangled this effort to (1) relieve unemployment, (2) relieve an acute housing shortage. Why? — Plausible excuses — lack of adequate security and reduced return (wages) on their money.

Under pressure of increasing public opinion witnessed by the citizens' committees endeavoring to stimulate interest in the opportunity provided by the government, they have been granting an increasing number of loans within easy reach of their desks — 200 loans in Vancouver, 1 in Abbotsford, 1 in Vernon.

There is and has been for several

years, a housing shortage in the Fraser Valley not to mention other permanent centres in British Columbia. There are good, solid, community-active citizens in these centres, qualified and responsible, well able to provide the one-fifth capital required under the D.H.A. and well able to pay the installments indefinitely and use the balance of their money for community enterprise. These are the men who are being refused consideration by the loaning companies because, probably, Abbotsford has no Town Planning Commission, Zoning By-laws or Millionaire class but is forty-five miles from Vancouver.

The D. H. A. was provided to relieve unemployment and a housing shortage. Both still exist. A recent depression was more severe than it need have because financial interests in Canada lacked confidence in the Dominion that gave them existence. A "recession" is threatening. It can be averted by a demonstration of confidence on the part of these same interests. This presents their second and, perhaps, their last chance.

We do not expect them to grant one hundred loans in towns the size of Abbotsford or to sound agriculturists in Sumas or Matsqui but there are at least five or ten "safe risks" in each of these districts. Multiplied by the number of similar places throughout the province and Dominion the improvement provided would be tremendous. The public and its government expect the loaning agencies, granted a privilege, to realize this, to accept reasonable wages and risk for their money to relieve unemployment and a housing shortage in Canada. If they do not the public will expect the government to, in future, ignore the financial interests and deal direct with its people, grant these loans under reasonable conditions and without excess charges for "inspection and supervision etc." (In the U. S. A. housing loans are obtainable for a little as one tenth down payment).

Even five or ten houses built in each of the centres of the Fraser Valley, Chilliwack, Abbotsford, Mission City, Langley, Haney, Cloverdale, etc., not to mention all the similar centres in British Columbia and Canada, would provide a stimulating volume of employment in building trades, sawmills and wood-working factories, flooring, stove, radio, furniture, bedding and other industries throughout the Dominion and proved necessary accommodation for deserving people.

Abbotsford, Sumas and Matsqui, representative of the public of this Dominion, expect action or will ask our government to deal directly with its people.

Swine Grader Promised B.C., Breeders Told

Definite assurance that a Dominion swine grader will be appointed for British Columbia was given at a meeting of the executive of the B. C. Swine Breeders' Association held at Chilliwack on Thursday by E. H. Barton, president, following his return from the national annual meeting and conferences with officials at Ottawa.

The appointment will be announced shortly after Easter, it is expected, when Livestock Commissioner Rothwell or one of his assistants will inaugurate the system in B. C.

The Provincial Breeders' organization has pressed the appointment for three years and the move is expected to effect widespread changes in the situation for breeders, packers, butchers and consumers.

Under the new system, dressed hogs will be inspected and graded on much the same basis as B. C. beef is at the present time. Top grades secure higher prices, thus providing an incentive to farmers. In Quebec, under the same system, it is estimated that 80 per cent more select pork and bacon is being sold to consumers than formerly.

B. C. swine men also requested appointment of a provincial field man to promote better breeding, but the Dominion Government stated that this is impossible at present.

Pneumatic Tire Tractor Bought By Matsqui Man

One of the 1938 pneumatic tire Fordson tractors has been purchased from Abbotsford Motors by G. Rotliff of Matsqui.

Fieldman Returns From Orient; Big Market for Type

Peter Scott, provincial fieldman for the B. C. Ayrshire Breeders' Association, returned from the Orient. He says there is an unlimited and a permanent market for young dairy cattle from B. C. in the Orient, provided they are of the right type.

1800 Acres Is Available For Grazing

Use of 1800 acres of reverted crown lands in the provincial dyking area for grazing purposes is being considered in a proposed arrangement between the Municipal Council and the provincial department of lands. The department is prepared to consider an application of the municipality to lease the lands, and in turn Pitt Meadows could issue grazing permits and collect fees for these.

Agassiz Clydes Go To Interior

Bulman Bros. of Kamloops have secured from the Dominion Experimental Farm, Agassiz, the big draft colt McDuff Volume (27499). This colt will be three years old in May, and weighs 1800 lbs. at the present time. Vance Young of Armstrong recently purchased from Duncan McRae of Agassiz a rising two-year-old Clydesdale, Radance Silver King (27983).

Spencer Farm Sale Realizes About \$2500

Approximately \$2500 was realized at the sale of equipment and horses held last week at Col. Victor Spencer's tobacco farm, Sumas Prairie Auctioneer T. D. Trapp sold six horses in addition to a large assortment of machinery on the four-hundred acre farm.

A. S. M. Agricultural Representative for B. C. E. R.

RALPH GRAM

Ralph Gram, agricultural representative of the B. C. Electric Railway Company, is at present engaged in a farm electrification survey of this district. He is making an accurate check of the company's distribution lines in the area, noting the services now rendered to customers and advising them on the uses to which electricity may be put in the carrying out of their farm work.

Mr. Gram, a resident here, was raised on a farm, and spent two years in agricultural engineering at the University of Saskatchewan. Later he came to British Columbia, and took his degree in agriculture from the University of B.C.

He was heard on a recent broadcast of the B. C. Electric's weekly farm talks from station CBR, in which he told of the efforts of Sumas growers to establish tobacco culture as a valley industry.

FERTILIZER CHEAPER IN U. S. DUE TO RAILWAY RATES

Following investigation by the Delta board of trade in an effort to secure lower fertilizer prices by buying quality, it was revealed this week that fertilizers manufactured in Trail could be purchased more cheaply in Bellingham than they could in New Westminster.

The difference in price is partially accounted for by higher rail rates between the two Canadian centres, the board found.

The board plans a co-operative buying scheme, by which all farmers would lump their orders and enable large-scale purchases.

Take Your Time On the Highway From New Clock

A Neon electric clock has been installed at the Rump and Sendall Hatchery, Langley Prairie. It has an illuminated 23 inch dial.

Buyers From Sumas, Lynden Take B.C. Stock

Sumas, Lynden and Blaine buyers took principal advantage of the sale of registered Edenbank Ayrshires held at the pioneer farm of E. A. Wells & Sons, Sardis, on Wednesday. Five of the American breeders bought over half of the stock sold but prices were only fair. George Bryant led Valley buyers, purchasing five head for his Rosedale herd.

Highest price of the eleven mature cows were reached by Edenbank Pretty Girl (104573), a thirteen-year-old cow, sold to G. Hasselgrave, Sumas for \$105. In eight months she has given 9095 pounds of milk, a test of 4.2 per cent.

Ellen's Isle Susie 11 (1669607), sired by Spicy Sam out of Ellen's Isle Susie, bred February this year to Monarch, also sold to Mr. Hasselgrave, brought \$87.50.

Highest price for young stock was brought by Edenbank Coronation Peach 1V (207417), for \$60. Average for the seven head of young stock was \$44.

R. B. Le Cocq of Lynden purchased four head; W. Shagren, Sumas, three head; H. Olsson, Blaine, two head and B. Brown, Sumas, one.

Horses Auctioned

Fifteen horses were auctioned off at a sale held last week at Mission, the prices running all the way from \$50 to \$115.

Plan to Balance '38 Potato Crop and Market

A. Swenson, chairman, A. W. McLellan and A. H. Peterson, secretary, members of the Lower Mainland and Fraser Valley Vegetable Marketing Board met Surrey potato growers at Cloverdale to discuss quotas and make adjustments under the new marketing scheme.

Last year there were 5,800 acres in potatoes in the Lower Mainland and Fraser Valley. The Board wants this amount reduced to 3,000 acres and allowing 4 tons to the acre, this would make the total approximate crop for the Board to handle about 12,000 tons. This is the amount now consumed on the coast.

A discussion on the general potato situation ensued and the meeting favored carrying on under the Potato Board. It was suggested that power should be invested in the Board to permit the creation of new markets.—Surrey Leader.

Plan Flower Show At Langley This Summer

A flower show will be held at Langley Prairie this summer under auspices of the Agricultural Association. A date about the end of June or first week in July is to be chosen for the event. Seventeen classes, including potted plants and cut flowers of all varieties, will be provided.

The School Should be the Servant of Life

T. W. HALL

An address delivered by Mr. T. W. Hall, Director of Education, Abbotsford, at the monthly meeting of the North Poplar Women's Institute.

Sometimes the school is looked upon as merely an instrument by which the greatest possible amount of knowledge is to be given to the growing generation. That is not the case. Knowledge is dead; whereas the school should be the servant to life. It should develop qualities and capacities in youth that will be of value in the community. That does not mean that the individual should be deprived of his individuality and become the passive tool of the community, like a bee or an ant. A community made up of standardized individuals, without personal qualities and ambitions, would be poverty-stricken indeed, and lack all possibility of development. The aim should be to produce individuals capable of independent action and thought, yet who feel that their greatest service in life is to the community. Character, therefore, may be said to be the main objective of education. The school and its curriculum should be organized to achieve this end.

Recognizing that there is some truth in the aphorism that "education is what remains after we have forgotten all we learned at school", modern educationists have planned a curriculum which they

hope, will equip the child for a more enriched life.

The greatest advantage of the new curriculum lies in the fuller scope for the free activities of the children as individuals or as groups. Peculiar bent or inclinations of individual pupils or groups of pupils are capitalized, recognizing that pupils learn best by doing. Recognizing, too, that with a greater leisure comes the menace of hours that may be unprofitably, even foolishly filled, attempts are made in handicrafts, the arts, music, literature, etc., so to interest the child that upon this foundation the increasing periods of leisure can adequately be filled with the realization of what essentially is meant by "man cannot live by bread alone". It is almost a truism to state that man, if he wreck his life at all, wrecks it in his leisure periods.

Arithmetic has now been summarily displaced and health enthroned. This, of course, includes mental health as well as physical well-being. The pupil should achieve health by living a healthful life and by building up a sound system of health habits.

Every effort is made to bring lasting joy and happiness to the hearts and minds of the children. Subjects have been chosen wisely, by no means for their entertainment value, but because they offer channels for joy in works; joy in achievement; and, modestly, joy in creation.

POULTRYMEN!

From now on baby chicks will be demanding your closest attention!

We again offer our Thrivo Starting and Growing Mash as the solution to your feeding problems. These proven mashies are of the same high quality and uniformity as the Thrivo mashies you have used so successfully in the past. Use Thrivo Starting and Growing Mash again this year and get off to your usual good start!

Ladies A	8	4	0	8	8
Mens' B	8	3	5	0	6
Ladies B	8	2	5	1	3

Members of the Abbotsford, Sumas and Matsqui Welfare Association attended, and asked for the support of the institute in their work. The \$1 membership fee was voted and Mesdames H. Beetlestone, J. Brown, C. Yarwood and J. Winslow agreed to attend the next meeting. Twenty-seven members attended and new members joined the institute. Mrs. A. Fraser displayed nine beautiful quilts, all made in different patterns.

Personal Paragraphs

Contributed by our District Correspondents

MATSQUI

Mrs. G. Crist and Mr. Chester Crist spent the week-end at Tacoma. Mr. and Mrs. Mundy were the guests of their daughter Mrs. E. Neville and Mr. Neville of Vancouver recently.

Mr. and Mrs. D. Mac Dougall and Mr. and Mrs. E. Roberts motored to Vancouver over the week-end.

The Misses Alice and Doris Smith who have been spending the past two weeks as the guests of their parents, Mr. and Mrs. Percy Smith, have returned to Mt. Vernon, Wash.

Ann Viag, daughter of Mr. and Mrs. Viag is seriously ill in the General Hospital, Vancouver.

Mr. and Mrs. A. McKenzie who have been residing at Half-Moon Bay the past three years have returned to Matsqui.

HUNTINGDON

Recent guests at the home of Mr. and Mrs. W. J. Fraser, Huntingdon were Mr. and Mrs. W. J. Rodgers and David John Rodgers of Lachute, Quebec, who have been on a trip to the Coast and as far South as Mexico.

A highly successful party and handkerchief shower was arranged by Miss Peggy Brown in honor of Miss Muriel Carmichael prior to her going in training in St. Luke's hospital in Bellingham. Sixteen girls spent a happy evening playing games and enjoying the delicious refreshments provided by Mrs. Brown, Mrs. R. Carmichael and Mrs. H. Clawson were also present.

Rev. A. Cameron of Abbotsford addressed the Women's Institute meeting held at the home of Mrs. Alex Fraser on the topic of "Community Ideals." Resignation of Mrs. M. Courtman as corresponding secretary due to ill health was accepted and Mrs. R. Carmichael was elected to the office. The sum of \$5 was voted to the provincial board toward July provincial conference expense.

SUMAS DISTRICT

Mrs. R. Harris spend a few days last week with relatives in Bellingham.

Mrs. York and Miss Gladys York visited with relatives and friends in Seattle over the week-end.

Mrs. S. Reid and Mrs. E. B. McPhail were Bellingham visitors on Tuesday.

Mr. and Mrs. M. Moran of Bellingham were Sunday guests at the home of Mr. and Mrs. Harris.

Mrs. Gentleman is visiting at her home in Vancouver.

Members of the S. P. S. Club were entertained at the home of Mrs. Sam Austin on Thursday with Mrs. C. A. Watson as co-hostess. A social afternoon was enjoyed and the prize winners in two contests were Mrs. T. Delair, Mrs. P. Starr and Mrs. L. McGarva.

Miss J. Short spent the week-end at the home of Miss P. Grieve of Rosedale.

Mr. Sidney Reid of Vancouver is visiting at the home of Mr. and Mrs. E. B. McPhail.

Miss Thelma Nelles entertained a number of her friends on Friday evening.

Mr. W. G. Fadden was called to New Westminster on Sunday on the sudden passing of his mother, Mrs. W. Fadden.

GIFFORD

Mr. V. Lind who underwent an operation in the M.-S.-A. Hospital is reported progressing favourably.

Mr. D. Reid who suffered a stroke at his home recently is now convalescing.

Mr. and Mrs. J. Larsen left last week for Sechart, where they will spend the summer.

Shamrock, tall hats, snakes and other motifs symbolical of mythological Irish lore were used in the decorations of the Glenmore school on Friday evening, when the members of the Community held a St. Patrick's social and whist drive. Fifteen tables of whist were in play, those winning prizes were: Ladies' first, Mrs. J. Threlfall; Ladies' consolation, Mrs. B. Nicholson; Gents' first prize was won by Mr. C. S. Johnson and Gents' consolation by Mr. A. Southan.

Mrs. H. Jones won the cushion which was raffled and also the "Box Contest" for the ladies. In a potato peeling contest, Married Men, vs. Singles, the Married Men were the most apt. For their agility they were each presented with one scribbler. A pleasing vocal solo was rendered by Mrs. Jones during the evening. Music for the dance was provided by Mr. David Thompson, Mr. T. Borg and Mrs. F. Thompson.

CLAYBURN

Misses Joan and Phyllis Mynors are confined to their home with scarlet fever.

Mr. Bert Mutch of the Vancouver police force visited his parents, Mr. and Mrs. John Mutch recently.

Mr. and Mrs. Horsting and family have taken up residence on the farm owned by Mrs. T. F. Seldon.

Miss Lillian Davies is confined to her home with scarlet fever.

Mrs. William Fooks was called to New Westminster because of the serious illness of her father, Mr. Robert McWaters who passed away at his home on March 17. Besides Mrs. Fooks he leaves to mourn his passing, his wife, two daughters and four sons. Mr. Fooks and family attended the funeral which was held on Saturday afternoon at New Westminster.

Mr. and Mrs. Smith and family of Huntingdon have taken up residence on the place formerly leased by Mr. Horsting.

Mr. and Mrs. J. Laughton of Vancouver spent the week-end as the guests of Mr. and Mrs. T. Kirkpatrick.

Mr. Claire Heath of Britannia is visiting at his home here.

Mr. and Mrs. William Baynes have as their guests the latter's sister and brother-in-law from Alberta.

The twenty-fifth anniversary of the United Church will be observed when the members of the Women's Auxiliary hold their annual supper on Thursday evening. A program will follow the supper.

Mr. J. Sutherland has obtained employment at Britannia.

Mr. Fred Simpson has returned to Britannia after visiting his father, Mr. W. Simpson.

Shower Held
 For Mr. and Mrs. Clarence Saunders

In honor of Mrs. Clarence Saunders, the former Miss Mildred Ericson who is the youngest daughter of Mr. and Mrs. Eric Ericson of Matsqui, and Clarence Saunders, son of Mr. and Mrs. Charles Saunders of Mission City, a miscellaneous shower and card party was held at the home of Mr. and Mrs. C. Gardner, Mission City on March 16.

The gifts, in a dainty decorated pink and white wagon were presented to the bride by the groom's little sister, Dot Saunders.

A dainty buffet lunch was served by the hostess, who was assisted by Mrs. C. Saunders and Miss E. Saunders.

Prize winners at whist were Mrs. Embery, Mr. C. Saunders, Mr. Mason and Mr. Gillies. Guest soloists during the evening were: Mrs. A. Gibbard of Matsqui, D. Saunders and Mr. J. Bowyer of Mission City.

Why don't you have this often Mom?

SERVE MORE FISH

CHILDREN love new dishes. They get a big "thrill" out of "something different for dinner", and you can give them this treat, in so many different ways, with Fish.

There are over 60 kinds of Canadian Food Fish and Shellfish from which to choose. Each can be served in a variety of recipes that melt in the mouth, arouse family enthusiasm, and leave them as satisfied as a cat that has had a kipper!

Fish is so good for the children... for the grown-ups, too. The fascinating ways of serving it make it fun to get meals ready. And when you see the way they eat it up, there's a thrill for you, too.

Serve fish more often... two or three times a week. Send for the FREE Recipe Book, and learn about new, delightful mealtime surprises for the family. You will find Fish economical... and it provides more nourishment for every pennyworth than any other food.

Ladies!

Radio Briefs
Wednesday, March 23rd. 5 to 6 P. M.

Singing Sid Wright owing to a severe soreness of the throat was unable to attend last Thursday's broadcast.

March 23rd marks the broadcast of Abbotsford's first Big Day event of the year. This gala event, which has taken weeks and weeks to whip into shape consists of more than twenty local singing stars. There will be pretty Jean DesMazes, Mercia Tressell, Effie Roberts and Enid Armstrong and a host of other Abbotsford favorites. While some of the highlights of the show will be sketches from the great motion picture production "Captains Courageous" under the personal direction of Jimmy McPhee. You will also hear for the first time on the air, Victor Hansen, Matsqui's very clever impersonator.

When you here the rooster crowing in Doc Lamberts banjo number "She'll Be Comin' Round the Mountain," remember it will be Harry Thomas "the sound affect man."

Percy Page and his "Mountainers" will go to town during the broadcast, with a real "hoe-down" that's clearly shows to us how our grandfathers had to dance.

It is to be the Show of Shows and we advise you to keep your radio tuned to this station.

(The A. S. & M. News invites correspondence of a public nature, but does not hold itself in any way responsible for the opinions expressed. No letter to the Editor will be inserted except over the proper signature and address of the writer. This rule admits of no exceptions. Brief Communications are more likely to be considered for publications.)

Editor, A. S. & M. News:

Let us gather together the children from every home, every school and of every age and have a good time. Let us crown our "May Queen," dance around the May-Pole, play our games, run our races and enjoy another company that day. But let us ask ourselves this question.

Is it necessary for our entertainment and before such a large number of school children to flaunt before them every inducement to begin a life of gambling or encourage the forming of such habits? Every game of chance, that was offered last year, from "house" to "house" to open opportunity to win anything from a penny to five dollars in cash for 5c or 10c a chance opens this evil door.

I was informed that formerly 15c out of every dollar of gross income from these gambling booths went to the orphans home and 85c walked out of town with nothing to show it had ever been here. Local creditors held an empty sack that day. Let us give our 15c direct and save 85c or give the whole dollar and let the children of the home have a better time.

Councilman, Professional men and Business men in general, every inducement to gamble we allow or encourage is a liability to the business moral and financial standing of our community. Remember the burglar and hold-up work of our teen age youth and older ones are only a variation of the game of chance.

We also ask the question of our school management, who we know do not allow such on public school grounds, why they should allow public school participation, when such is carried on in the same grounds where and at the same time we celebrate May Day.

Yours for Better Youth Environment.

REV. R. E. LAWRENCE

**THE LIBRARY CORNER**

HISTORY—MADE AND IN THE MAKING

Beensstock, Gregory—the Struggle for the Pacific, 1937. A factual and interpretive analysis which traces the lines on which a compromise may be based, between the powers who will decide the geopolitical destinies of the Pacific.

Latourette, K. S.—Development of China, 5th edition, 1937. This is a thoroughly revised edition of a standard work by a recognized authority. It is an excellent introduction to the understanding of Chinese history, character and the present problems.

Tanhi, O. and Yohan, E.—When Japan Goes to War, 1936. The authors attempt to ascertain what strain will be imposed on the economic and political system of Japan by a war seeking to establish Japanese domination in Asia.

Hitti, P. K.—History of the Arabs 1937. A standard work of unbiased and unimpassioned history, written in a style that will gratify both the scholar and the non-expert. An enthralling interesting story of a people whose history is ordinarily known only in the most piecemeal and haphazard fashion to the average reader.

Farago, Ladislav — Palestine on the Eve, 1936. The record of a British journalist's visit to Palestine in 1936, giving impressions and authoritative information on the political and economic forces at work.

Brady, R. A.—Spirit and Structure of German Fascism, 1937. Mr. Brady believes that a dissection of the methods and condition under which Hitler rose to power may enable the democratic peoples to better protect themselves against a similar occurrence in their countries. Accordingly Dr. Brady has taken German fascism apart, piece by piece, and has thrown into sharp focus, as he says, its "spirit and structure."

Freund, R.—Watch Czechoslovakia! 1938.

Entries From All Parts Of B.C. Received

As a prize for the girl or boy winning the greatest aggregate points in the Central Fraser Valley Junior Badminton Championships to be held here in April, H. Shaw of Vancouver, agent for the T. H. Prosser Co., has offered a Trooper racquet.

A large and interesting list of entries is expected for the second annual tourney. Already entries have been received from Kelowna, Vernon, Pioneer, Bralorne, Minto, Vancouver Island, Vancouver, New Westminster and nearly all Fraser Valley centres. The tournament will be, in fact, representative of British Columbia and Abbotsford will have to extend itself to do justice to its many guests during the three days of the championships.

Out of Jail in Morning, Back in Toils By Night

Released from Oakalla jail, Burnaby, on Saturday morning, George Wallace literally walked into custody again on Saturday night though he did make a belated effort to avoid capture.

Constable Percy Bolton of the Abbotsford detachment of Provincial Police, who resides at the home of Mr. and Mrs. Alex McPhee was having a cup of tea in the kitchen when stealthy movements were heard in the hallway. Constable Bolton investigated and discovered Wallace had entered the house. Bolton gave chase when the man fled and arrested Wallace after a sharp run. Charged before Magistrate G. F. Pratt in Abbotsford Police Court with unlawful entry, Wallace was committed for trial.

LOWER FREIGHT RATES ON LUMBER TO ENGLAND

A big year in lumber exports to the United Kingdom is expected by Fraser River sawmill operators as a result of the reduced rates just announced by steamship lines on lumber shipments. Rates are also reduced on wheat exports.

The Pacific Coast European Shipping Conference in San Francisco cut the rate on lumber to U. K. from 65 shillings to 60 shillings a thousand feet.

Last year the Port of New Westminster exported 127,000,000 feet of lumber to the United Kingdom, a decrease of 25,000,000 from the year before. Lumbermen believe that with stable conditions the Royal City may enjoy a big year—possibly totalling \$150,000,000 to 200,000,000 feet.

Heads Fair Board

E. M. Gueho has been elected president of the Burquitlam Agricultural Association at its 1938 annual meeting. Other officers are: Vice-president, L. C. Clements and secretary-treasurer, C. Westoby.

Want Weather Station Back

The re-establishment of a meteorological station at Chilliwack is to be pressed by Chilliwack Board of Trade. For a period of forty years up to 1934 daily reports of maximum and minimum temperatures, rain and snowfall were kept.

Divorce Granted

A decree of divorce was granted Friday in Supreme Court New Westminster, by Mr. Justice Murphy to Ellen Louise Pryor, Vedder Crossing from James Walter Pryor, locomotive engineer for Vedder Crossing Logging Co., whom she married at Surrey Centre in 1922.

15 Years Ago

E. T. Hendrom has purchased R. G. McLeod's store.

The Seaforth restaurant, formerly operated by Mrs. Keep, has reopened under the management of Mrs. B. Hyatt.

Grounds and approach to the M. S.-A. hospital are to be improved. The hospital board has set aside \$300 and the Hospital W. A. \$200 for this purpose. The grounds will be graded, a concrete footpath laid and the driveway improved.

B. C. Poultrymen's Co-operative Exchange have opened collecting stations in Matsqui and Abbotsford. The association claims control of 80 per cent of the eggs shipped to the Coast and to be handling 2000 cases weekly.

Poplar and district are growing the fast and welcome new members in to the Community Association.

Sixty couples attended the third annual dance given by the employees of the local banks.

At a meeting in the municipal hall, Whatcom road, presided over by Rev. A. H. Priest, it was decided to hold un denominational services alternately with the Anglican service conducted weekly for some months by Mr. Good.

Clayburn Company is extending its markets and has about 60 men at its Clayburn plant and 20 at Kilgord.

A meeting was held at Huntingdon to invite berry growers there to join the Abbotsford local of the Berry Growers Co-operative Union of B. C. The Speaker, Mr. Laundry, stated that co-operation was an imperative necessity for berrymen if they were to survive economically.

What Will My Monthly D.H.A. Payment Amount To If I Can Get A Loan?

MANY people who intend to build, wonder just how much they will have to pay each month to pay off their Dominion Housing Act loan and interest at 5 per cent. The exact figures are given below for the various amounts up to \$5,000. In order to estimate the total monthly payment, one-twelfth of the current annual taxes must be added to the figures shown. Water rates, payable monthly or semi-annually, and fire insurance, payable each three years, must also be taken care of by the borrower. The loan may represent up to eighty per cent. of the estimated cost of the proposed house.

Amount of Loan	Monthly Payment of Loan	Amount of Loan	Monthly Payment of Loan	Amount of Loan	Monthly Payment of Loan	Amount of Loan	Monthly Payment of Loan
1000.....	6.54	2700.....	17.65	3500.....	22.88	4300.....	28.11
2000.....	13.08	2800.....	18.31	3600.....	23.54	4400.....	28.77

Honor Ex-Reeve For 25 Years of Public Service

Two hundred persons attended a complimentary banquet tendered J. T. Brown, former reeve of Surrey, in the Athletic Hall, Cloverdale. "Joe" Brown retired last January after seven years of continuous service as Reeve and a total of 25 years on the Surrey council. His successor, Reeve John Hunter, presided at the function.

Chief Constable Len Collishaw presented Mr. Brown with a gold watch on behalf of his municipal associates and friends. Miss Grace Kellaway, of the municipal hall staff, presented Mrs. J. T. Brown with a silver vase.

Speakers who paid tribute to Mr. Brown's work on behalf of the Valley and province during his year's of municipal service included Reeve G. A. Cruickshank of Matsqui.

Celebrates 87th Birthday; Walks Two Miles Daily

Mrs. Logan Davis Sr., of Cloverdale celebrated her 87th birthday on Tuesday, March 22nd. Mrs. Davis enjoys excellent health and takes a walk of one or two miles every day.

Council Grants \$300 to Athletic Park Project

Proposed purchase of a six-acre tract of land adjoining the municipal hall, for the Pitt Meadows Athletic Association, was further advanced by the Municipal Council, when it approved of a \$300 grant towards the cost. The area is being obtained for development as a ball park and recreational centre.

Revaluation Proposed

Complete revaluation of improvements for taxation purposes is proposed for 1938 by the Surrey Council. Reeve John Hunter and Councilor T. W. Smith will report on the project to the council.

Would Preserve Hall as Museum For Early Relics

Preservation of the original Surrey Municipal Hall, used for many years as one of the buildings for the Surrey fall exhibition, is proposed by the Surrey Junior Chamber of Commerce. It would be preserved as a historic relic and used to house mementoes of the pioneer days.

Choose May Queen

Miss Jean McIver, daughter of Mr. and Mrs. Kenneth McIver of East Langley has been chosen May queen for Fort Langley's 1938 celebration.

The SNAPSHOT GUILD

"ANGLE" PICTURES

Tilting the camera up or down gives unusual "angle" pictures.

When you walk down the street of your home town, looking for pictures, what are some of the things you see?

Do you notice a new building going up, and tilt back your head to get a good view of the work? Is there someone digging a pit or excavation, so that you have to lean over and look down to see what's going on?

In such cases, the angle makes the view interesting, doesn't it? Then why not try the same thing with your camera?

I know, of course, there's a rule which says, "Don't tilt the camera." It's a good rule, too, for many pictures. For instance, if you take a picture of your house, and get so close that you have to tilt the camera upward, your picture will show the house as if it were tilted back on its foundations, which isn't the effect you want at all.

But, in a great many pictures, an unusual viewpoint gives added interest. And, for many subjects, the "bird's eye" or "worm's eye" angle is a natural point of view.

For example, suppose you see a painter on a tall ladder doing repair work on a store sign? If you snap him from some distance down the street, the picture won't be especially interesting. But—what if you are almost under the ladder, with the camera pointed straight up at

him? You will get an "angle" picture that catches the eye instantly and if you try snaps from two or three angles, turning the camera so that the lines of the ladder and store sign "lead into" the picture in different ways, you may get several striking arrangements.

Whether it is a "natural" view of an unusual subject, or an unusual view of an ordinary subject, the "angle shot" nearly always has interest value. A small boy curled up in a big armchair with a book is a good picture subject from a normal viewpoint. But why not try a snap of him from a high viewpoint, such as from a box or table or even from the household stepladder? It might give an even better picture.

I saw an interesting "straight-down" snap recently made from a window right over the snapshotter's front door. Two visiting friends were looking straight up at the camera, one could see but little more than their faces, and the walk on which they were standing. Unusual camera angles made the picture unusual. But there really should have been one more picture—a snap of the snapshotter as he leaned out of the window to snap his friends, taken with the camera pointed straight up. That would have given both viewpoints.

Try some "angle shots." They are a fruitful source of camera fun.

Knowledge of Buttermaking Gained From Research Work Presented to Association

Under the title of "Newer Knowledge of Buttermaking", Dr. E. G. Hood, Chief, Division of Dairy Research, Dominion Department of Agriculture, presented an important paper at the convention of the Manitoba Dairyman's Association. All

improvements have been found in the surface quality of the butter as compared with the older method of packing.

Numerous other papers are to be found in the literature on the wrapping of butter. These include studies on the chemical and mechanical properties of parchment paper, mould development, methods of sterilization, specially treated papers to exclude certain light rays, and the influence of the wrapper on the autoxidation of butter fat.

In summarizing the activities of the main butter producing countries of the world, concludes Dr. Hood, there appears to be ample evidence to show that the industry is progressively advancing, but as yet many problems remain unsolved. Aside from the questions involved in the procurement of high quality cream, further scientific knowledge is needed on butter, relative to its structure, microbiology, and chemical composition, as well as its nutritional aspects, before the fullest benefits can be derived by the industry.

Empire's First Tapioca Plant

Will Be Erected In Honduras On Site Called Canada Hill

A. Reg. Timms, contractor of Welland, Ont., has left for British Honduras to supervise and act in a consulting capacity in connection with the erection of building and installation of machinery for what will be the only factory in the British Empire manufacturing commercial tapioca starch from the cassava root. The site of the pioneer factory has been named "Canada Hill."

The development of this industry had its origin two years ago. At that time two young men, George Patterson of Toronto and Bill Murray of Montreal, conceived the idea that somewhere in the British Empire there was a location suitable for the production of cassava roots and determined to find that location.

There followed months of investigation of possibilities throughout the Empire and they found a hidden valley in British Honduras where the cassava tree could not only be grown profitably but where the production of starch per acre was as high and higher than the East Indies.

The organization of Empire Starch Products, Limited, and the support of the British Colonial Office and the Agricultural Board of British Honduras followed.

The Government of Honduras agreed to construct wharfage, docks and a 26-mile road from the sea coast to the valley, on the condition that the company produce a satisfactory financial set-up.

The British Government has voted \$25,000 toward provision of a suitable port and the construction of the road which follows for a great part of the way an abandoned narrow-gauge railway bed which had been used for taking out teak-wood and other hard woods from the interior.

A Great Trading Post

Colony Of Hong Kong Is Administered By British Governor

Hong Kong is virtually as British as Newfoundland. The colony is administered by a British governor with an executive council. It is one of the world's great trading ports. As well as the British city of Victoria on the island of Hong Kong, the suburb of Kowloon on the mainland is under the British flag. Additional territory further inland toward Canton has also been leased from China. Whether Japan can strike at Canton without also making war on the British colony of Hong Kong may be demonstrated in the next few months. It is incredible that it would be British policy to allow Hong Kong to go the same way as Shanghai.—Ottawa Citizen.

Counted Real News

Fish Bites South African Native And His Dog

By biting a native and his dog near Mombasa, South Africa, a fish routed them and escaped at its leisure. The man was cornering and catching finny swimmers which had been left in a pool by the receding tide. The dog entered the water, but was immediately nipped by the cornered fish and fled. When the native tried to grab it he was attacked and bitten on the hand. The man was treated at a hospital. The fish escaped when the tide rose.

Doctor: "You must have plenty of fresh air, what is your occupation?" Patient: "Parachutist."

Modern Ways of Saving Money

EVERY year your family, and every family of your acquaintance, spends about 70 per cent of its income just for living, exclusive of rent—so economic experts tell us. Think what this means—seven dollars out of every ten invested in food, clothing, household utilities and all the multitude of things that keep a family comfortable and happy.

That part of spending is readily understood. But do you realize that every manufacturer and retailer of these necessities is planning how he can get your dollar?

It's a big job to spend so much money wisely and well. It requires careful business methods to get the best possible returns from each dollar that leaves the family purse.

The clever woman goes for help to the advertisements in her local paper. There she finds a directory of buying and selling, she learns about the offerings of merchants and business people. She compares values. She weighs quality and price. She takes this opportunity of judging and selecting almost everything she needs to feed, clothe, amuse, instruct and generally bring up her family.

Read the advertisements! You will find them willing and able to serve you in the business of purchase.

An afternoon nap—and an indoor-sunlight picture of rare charm. Note how reflecting surfaces, the light walls, the bed spread, the white dress, soften and brighten the shadows. Exposure 1/10 second at f8.

Do not feel, fellow snapshooters, sorry to aid the shadow illuminating that just because the sun stays out of doors you cannot make sunlight pictures inside.

Wherever sunlight streams through a window, there is a setting for a picture, often an extremely good picture, because of the play of light and shadow from the window framing and curtains.

In a light-walled room, especially one with plain plaster walls or patternless wallpaper, the shadows in such an indoor-sunlight picture have a soft, luminous quality which gives the prints unusual delicacy and appeal. However, unless it is a sun-room that has windows facing in several directions, it is necessary to use reflectors to soften shadows where

PROTEST EXPORT OF WAR MATERIALS TO JAPANESE
A large crowd attended the meeting held in the Poplar hall, Sunday afternoon, which was held under the auspices of the Canadian League for Peace and Democracy. Speakers were Mr. J. Phillips of Vancouver and Rev. Edwin Baker. Resolutions were passed to be sent to the King government calling for an embargo of war materials being exported to Japan.

Taxes and the Farmer

(Continued From Front Page)

accompanied by relatively stable prices. When prices of farm products dropped from an index of 100.8 in 1929 to 48.4 in 1932, taxes failed to decrease accordingly so that this period was characterized by defaults in tax payments and an accumulation of delinquent taxes in most rural municipalities.

A clearer picture of the relationship of farm taxes to farm prices during this period can perhaps be given by indicating the amount of different farm products required to pay the taxes on an average farm at different periods. In 1913 taxes on an average Fitzroy township farm of 110 acres might have been paid with 508 pounds of steer. In 1929 it would have taken 761 pounds, and in 1932, 2,177 pounds. If, on the other hand, payment was made in fluid milk, it would have taken 1,167 pounds in 1913, 2,725 pounds in 1920, and 9,936 pounds in 1932. This increase of 328 per cent in the case of steers and 743 per cent in the case of fluid milk is due to the fact that while taxes rose, the prices of farm products declined.

Based on an analysis of the finances of a group of representative Ontario municipalities, the purposes for which revenue from farm taxes has been spent are shown in the accompanying table.

During the five years, 1927 to 1931, about 47 cents of the farmers' tax dollar was spent on education, 38 cents on highways, and 6 cents on welfare purposes. The remaining 9 cents went to pay for costs of administration, protection and other miscellaneous purposes.

It may be noted that while the proportion of the total expenditure, which was made up by administration, protection and other miscellaneous items decreased between 1902 and 1931, a marked increase occurred in the case of highways and welfare. Although education was the most important single item throughout the period, its relative importance has decreased since the period 1907-1911. Extension of highways, welfare and educational services have therefore been the principal factors making for increased farm taxes.

In considering recent trends in farm taxes, it must be remembered that the past thirty years have been characterized by one of the most important periods of industrial development and economic prosperity in the history of the world, as well as by one of the greatest economic work in a logging camp at Deroche, having incomes of \$1,000 or less

One other aspect of the farmers' tax problem demands attention. This is the equitable distribution of the cost of municipal services among individual taxpayers. There are in the main two basic principles according to which the cost of public services are allocated. These are the ability to pay and benefit derived. While certain public services such as age, electricity, water, etc., are adapted to financing on the basis of the benefit theory governments are obliged to give much attention to the principle of ability to pay, in order that they may be assured of a continuous income. The general property tax system is considered by many to incorporate both of these principles on the assumption that possession of property denotes both ability to pay and the receipt of benefits. While this may be true of a more primitive type of economy, it has many limitations as applied to our present society.

In a study of 733 farm records of mixed dairy and apple farms in Ontario, it was found that farmers

Abbotsford, B.C.; phone 58.

It's a good rule, too, for many pictures. For instance, if you take a picture of your house, and get so close that you have to tilt the camera upward, your picture will show the house as if it were tilted back on its foundations, which isn't the effect you want at all.

But, in a great many pictures, an unusual viewpoint gives added interest. And, for many subjects, the "bird's eye" or "worm's eye" angle is a natural point of view.

For example, suppose you see a painter on a tall ladder doing repair work on a store sign? If you snap him from some distance down the street, the picture won't be especially interesting. But—what if you are almost under the ladder, with the camera pointed straight up at

the household stepladder? It might give an even better picture.

I saw an interesting "straight-down" snap recently made from a window right over the snapshooter's front door. Two visiting friends were looking straight up at the camera, one could see but little more than their faces, and the walk on which they were standing. Unusual camera angles made the picture unusual. But there really should have been one more picture—a snap of the snapshooter as he leaned out of the window to snap his friends, taken with the camera pointed straight up. That would have given both viewpoints.

Try some "angle shots." They are a fruitful source of camera fun.

Evidence Would Indicate That Great Britain Will Be Ready Should War Come

Evidence continues to accumulate that Great Britain, while in no sense seeking war, is certainly rushing her way to effective preparedness, should war come. The new fortifications at Cyprus; the strengthening of the air base at Alexandria and of the protection of the Suez Canal; the notable additions to the air force at Singapore and the establishment there of the most powerful mobile heavy gun batteries in the world to-day, so far as is known; the plan—officially confirmed in London cables—to establish a strong naval and air base at the port of Freetown in the West African colony of Sierra Leone; the huge undertaking at Capetown, in the cost of which Britain is sharing; and the additional warships over and above those already planned, envisaged in the speech of Sir Thomas Inskip a little while ago—there are some of the concrete proofs that the British Government is not only alert to the critical nature of the general international situation but has no intention of being caught napping by any other Power anywhere at any time.

Rumors continue to keep the cables busy. The latest credits Mussolini with having indicated that there would be big things doing in March, in connection with which he is reported to have referred to the alleged superiority of the Italian Fleet in the Mediterranean over British naval power. But it is quite on the cards that Mussolini will be reckoning without his host. Already a realignment of British sea-power has resulted in the shifting of some of Britain's newest rebuilt battleships into the Mediterranean, and it is reported on good authority that there are more to follow. The whole point of this is that Britain is the only Power which has been reconstructing upon a gigantic scale and that most of this work of reconstruction is now complete or will be within a very short time. These new reconstructed battleships and cruisers are much more modern and much more powerful than those still in commission but not yet outmoded.

Now comes news from London that within one year Britain counts upon possessing a fleet of ten thousand military airplanes—which would give her an air force more than equal to those of Germany, Italy and Japan, on the basis of the latest available estimates. Already Britain has 1,560 first-line airplanes, which is only 190 short of the number she should have to-day under the rearmament programme. Work is being speeded up weekly. But behind this first line she has a force the real strength of which has never been made public. Now this strength, it is said, will be six reserve planes for each first-line plane within a year; and as these reserves are just the same planes as the first line, that would give Britain a total air force of 12,250 planes within the twelve months.

Consider these facts in addition to the recent army commands shake-up, the complete mechanization of the army, and the plans for improving enlistment in all three forces—plans which are having distinctly encouraging results—and it is not difficult to perceive that Britain is thoroughly aroused and is moving with all possible speed to be in an assured position to meet any attacks that may be made.—Montreal Star.

Oil From Grapestones

Chemists in Germany Say It Is Commercial Possibility

Oil from grapestones is the latest achievement claimed by modern German chemists who have already produced wool from fish, cork mats from potato peelings, and suits from straw.

Experts attached to the Rhineland wine industry have for several months been seeking means of using up the stones and skins left after the grapes have been crushed, and they now announce that oil production has become a commercial possibility. Already it is stated over 40,000 litres of oil have been derived from the stones alone, and as the process is developed it is hoped to produce 1,000,000 litres a year of fine-graded grape-stone oil.

"Come in, George," said the Master of the house. "He won't touch you. You know a barking dog never bites."

"Yes, I know that," came the reply, "but does the dog know it?"

Stores in Buenos Aires, Argentina, are being air conditioned.

In Burma, tattooing is regarded as a fine art.

For The Woman Investor

Some Hints Which Should Be Very Carefully Followed

Statistics show that much of the capital of the world is held by women, who have inherited it from fathers or husbands. To invest this wisely, that it will not be lost and will bring in a steady income, is very difficult for the woman who has been shielded by her gallant males from financial worries, as well as from the knowledge and experience which she sorely needs later.

One of the first financial axioms is: "Don't carry all your eggs in one basket." Diversify your investments putting some of the money into real estate, some into endowment insurance, stocks which you have reason to believe certain, state and city bonds, and high grade public utilities. Thus you distribute your risk. You are not likely to lose along all lines, even if one should "go bad."

Diversity of investments is not enough. Each investment should be carefully studied and found secure. Invest in growing industries, not in things which may soon be out of date, as carriages or churns.

Do not buy on too narrow a margin. If you own only a small per cent. of a bond, you may have to sell when hard times come and so will lose money on the deal. If you own the entire bond, or most of it, you can hold it until it returns to face value and have lost nothing. It is risky to invest money in foreign countries, since a war or changed laws may make your holding worthless.

Before you sign away any of your money or your rights, or make a contract, read over every word of the agreement carefully and be sure that you understand what it means. It is even wise to consult a reliable lawyer about the advisability of such a move. Have everything down "in black and white," as that is good business sense.

Process Is Complicated

Laboratory Workers Find Lipstick Is Hard To Make

Have you any idea of the complicated processes that go to make beauty preparations?

Lipstick, for instance, of which a large factory can turn out several hundredweight a week.

Lipstick is temperamental stuff to make, laboratories will tell you. It may be blended to the exact formula and heated for the right time at the right temperature, and then it will come out very slightly different in color or consistency—and there is nothing to do but throw it away and start again.

When the mixture is just as they want it, they pour it into a metal mould with perhaps twenty holes. The mould unscrews into halves, leaving 20 lipsticks. It's a slow, delicate business, and the dyes, in powder form, have to be indelible and will stick to anyone working on them.—Overseas Daily Mail.

Just What He Said

Dealer Played Safe In Recommending Horse To Purchaser

The deal was just being brought to a close.

"He appears to be the kind of horse I want," said the purchaser. "Yes, he is a fine-looking horse," the vendor answered.

"And he's a good worker?"

"When you see 'im at work you will be delighted with 'im." The horse changed owners.

A week later a heated argument was being waged between the same two men.

"And you had the — cheek to tell me he was a good worker! Why, 'e couldn't pull a hen off its nest!" "I never told you nothing of the sort. Wot I said was—when you see 'im at work you'll be delighted with 'im—an' so you will!"

The forest measuring worm, when alarmed, will stand out so straight and still from a limb that even the birds think him a small twig and pass him by.

Having found on the doorstep of the universe a star almost as big as our solar system, Yerkes observatory astronomers plan to leave it there.

The term cowboy first was used during the American Revolution and was applied to a band of Tories who stole cattle from both sides.

The toad is toothless, but frogs have teeth.

Crochet Works Magic With String

PATTERN 6039

Your hook acts like a magic wand as you crochet these exquisite medallions in string. They count up so quickly, you'll have enough to sew together for a beautiful spread, cloth, scarf or pillow before you know it! They measure 7 1/2 and 2 3/4 inches in string—smaller in finer cotton. In pattern 6039 you will find complete instructions for making the medallions shown; an illustration of them and of all stitches used; a photograph of the medallions; material requirements.

To obtain this pattern send 20 cents in coins (stamps cannot be accepted) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

Exercised Their Rights

Grenadier Guards Marched Through London With Bayonets Fixed

The steamship Dunera arrived at Southampton recently with the Second Battalion, Grenadier Guards, from Egypt, and the First Battalion, the Duke of Wellington's Regiment, from Malta.

The Second Battalion, Grenadier Guards, exercised its ancient right of marching through the City of London with bayonets fixed, drums beating, and Colors flying. In accordance with custom the City Marshal (Commander J. B. Poland) challenged the battalion at the city boundary, and on the commanding officer replying, "The Second Battalion, Grenadier Guards, exercising their ancient privilege and right to enter the City of London with Colors flying, drums beating and bayonets fixed," the Marshal replied: "I have it on the authority of the Lord Mayor, to receive and attend your regiment through the city."

The City Marshal escorted the battalion through the city, and the Lord Mayor took the salute from the balcony of the Mansion House.—London Times.

"We have everything on the menu to-day, sir," the waitress said. "So I see," the customer said. "How about a clean one?"

An apparatus at Harvard University presses water into five different solid forms and can squeeze air into a substance as dense as water.

Hailstones in a summer storm recently killed two hundred sheep at Wolversruit, South Africa.

Appreciated In India

Air-Conditioned Train Will Make Travelling More Enjoyable

Train travel in India is notoriously unpleasant. The winter conditions our railways have to contest are reversed as India fights excessive heat. But another indication of new India is the fact that the first air-conditioned train recently made a demonstration run from Delhi to Agra and back. Four coaches were used for the journey which was a revelation to those on board of modern methods of travel and comfort for passengers in that hot country. The air-conditioning equipment made it possible to maintain a steady temperature inside the carriages, the air being renewed every four minutes. Each coach accommodates fourteen first class passengers, being divided into five two-berth compartments and one four-berth compartment. It is proposed to attach an air-conditioned coach to each mail train between Howrah and Bombay via Chcheeki.—Brandon Sun.

Fish Eats Water Fleas

Supply Sent Daily To Buckingham Palace For Aquarium

Fleas go to Buckingham Palace every day but they don't bite anyone. They are specially bred food for fish in the royal aquarium.

A tropical fish expert drives into the palace courtyard with a small black bag containing a supply of water fleas. For easier handling they are semi-frozen on gauze trays.

When dropped into the water, they come to life and give the fish some exercise—if not snapped up first.

Midget Engine Conveys Honor Key To Rail Chief

A SPECIAL railway line was set up by the Halifax Board of Trade recently by which Mayor Walter Mitchell presented a golden key to the City of Halifax to S. J. Hungerford, Chairman and President, Canadian National Railways, and President of Trans-Canada Air Lines. The occasion was the annual banquet of the Halifax Board of Trade, at which Mr. Hungerford was guest speaker. The track was laid along the head table and Mayor Mitchell, after making the presentation speech, placed the key on the tender of a miniature Canadian National locomotive which conveyed it along the rail and stopped in front of Mr. Hungerford. The picture shows the President of the National System receiving the key. Among those present at the inauguration of this unique rail service were Hon. Robert Irwin, Lieutenant-Governor of Nova Scotia, Premier Angus L. Macdonald and Frank K. Warren, President of the Board of Trade, who presided.

Knowledge of Buttermaking Gained From Research Work Presented to Association

Under the title of "Newer Knowledge of Buttermaking", Dr. E. G. Hood, Chief, Division of Dairy Research, Dominion Department of Agriculture, presented an important paper at the convention of the Manitoba Dairymen's Association. All the high points in butter research throughout the world for the past five years, summarized from the results of investigational work carried out in the main butter producing countries, were dealt with in the paper, including contributions from dairy research institutions in New Zealand, Australia, United States, South Africa, Germany, Denmark, Ireland, Great Britain, Sweden, and Canada.

For the purpose of presentation, the subjects under review were arranged under the following sub-heads: Neutralization; Workmanship; Wash Water; Packing; Storage and Keeping Quality; Defects; Standardization of Composition, and Laboratory Control. The main object in presenting a subject of this character, stated Dr. Hood, was to give some insight into a few of the major problems under consideration in the main butter producing countries of the world and point them out to buttermakers who have not the time nor access to the dairy literature. In addition to that, it seemed desirable to stress upon the practical man the importance of the scientific side of buttermaking, and that effort and expense have not been spared by the scientist in solving problems concerning the practical work of the dairymen of Canada. While it was generally recognized that good butter could be made even with the knowledge of to-day, many of the why's and wherefore's still remained mysterious and awaited logical explanations on a scientific basis. It was also apparent, continued Dr. Hood, that if progress were to continue and improvements in quality and method be made in buttermaking, as in other fields of industry, experimentation must continue, and the findings of such work must eventually be applied to every day practices.

Under the sub-heading of workmanship, recommendations are made in the manufacture of winter butter from butterfat with a low iodine number, and also in the manufacture of summer butter. In the case of the latter, the recommendations are three in number, namely (1) since the body of summer butter is normally soft, a relatively high wash water temperature should be used. Though wash water with a temperature as high as 60 degrees F. will increase the firmness of butter, wash water of this warmth will reduce the standing-up properties of the butter. It is probable that the optimum temperature of the wash water will be about 50 degrees F. (2) The cream should be cooled to, and held at, as low a temperature as is practical. Cooling the cream to a low temperature will increase the firmness of the butter and also increase its standing-up properties. (3) The cream should be churned at as low a temperature as is practical. The lower the churning temperature, the firmer the butter.

With regard to packing, liners and boxes, heavy financial losses have been incurred by butter manufacturers in many countries by wood taint, surface flavours, and high colour. To overcome these difficulties, much attention has been given to this subject, particularly in New Zealand, Australia and Canada. Experiments recently conducted by the Dairy Research Institute of New Zealand show that great benefits can be secured from the use of a new butter-wrapping material, triple foil parchment, which is a sheet of aluminum foil, sandwiched between two sheets of parchment paper. Results of New Zealand experiment have been paralleled in Australia. On the basis of the findings of these two countries, it appears as if this new type of butter wrap will eventually allow countries far distant from England to land their butter into store there in the same condition as the freshly made butter forwarded more quickly from the close continental countries. Experiments in Canada conducted by Hood and White with the triple aluminum foil wrap further confirm the results obtained in New Zealand and Australia.

The casein-formalin spray method of Wiley for the treatment of butter boxes to overcome wood taint has met with considerable success in Australia. An adaptation of the method has been made by Hood and White to Canadian butter box manufacture. While its use has been limited to Western Canada, marked

improvements have been found in the surface quality of the butter as compared with the older method of packing.

Numerous other papers are to be found in the literature on the wrapping of butter. These include studies on the chemical and mechanical properties of parchment paper, mould development, methods of sterilization, specially treated papers to exclude certain light rays, and the influence of the wrapper on the auto-oxidation of butter fat.

In summarizing the activities of the main butter producing countries of the world, concludes Dr. Hood, there appears to be ample evidence to show that the industry is progressively advancing, but as yet many problems remain unsolved. Aside from the questions involved in the procurement of high quality cream, further scientific knowledge is needed on butter, relative to its structure, microbiology, and chemical composition, as well as its nutritional aspects, before the fullest benefits can be derived by the industry.

Empire's First Tapioca Plant

Will Be Erected In Honduras On Site Called Canada Hill

A. Reg. Timms, contractor of Welland, Ont., has left for British Honduras to supervise and act in a consulting capacity in connection with the erection of building and installation of machinery for what will be the only factory in the British Empire manufacturing commercial tapioca starch from the cassava root. The site of the pioneer factory has been named "Canada Hill."

The development of this industry had its origin two years ago. At that time two young men, George Patterson of Toronto and Bill Murray of Montreal, conceived the idea that somewhere in the British Empire there was a location suitable for the production of cassava roots and determined to find that location.

There followed months of investigation of possibilities throughout the Empire and they found a hidden valley in British Honduras where the cassava tree could not only be grown profitably but where the production of starch per acre was as high and higher than the East Indies.

The organization of Empire Starch Products, Limited, and the support of the British Colonial Office and the Agricultural Board of British Honduras followed.

The Government of Honduras agreed to construct wharfrage, docks and a 26-mile road from the sea coast to the valley, on the condition that the company produce a satisfactory financial set-up.

The British Government has voted \$25,000 toward provision of a suitable port and the construction of the road which follows for a great part of the way an abandoned narrow-gauge railway bed which had been used for taking out teak-wood and other hard woods from the interior.

A Great Trading Post

Colony Of Hong Kong Is Administered By British Governor

Hong Kong is virtually as British as Newfoundland. The colony is administered by a British governor with an executive council. It is one of the world's great trading ports. As well as the British city of Victoria on the island of Hong Kong, the suburb of Kowloon on the mainland is under the British flag. Additional territory further inland toward Canton has also been leased from China. Whether Japan can strike at Canton without also making war on the British colony of Hong Kong may be demonstrated in the next few months. It is incredible that it would be British policy to allow Hong Kong to go the same way as Shanghai.—Ottawa Citizen.

Fish Bites South African Native And His Dog

By biting a native and his dog near Mombasa, South Africa, a fish routed them and escaped at its leisure. The man was cornered and catching finny swimmers which had been left in a pool by the receding tide. The dog entered the water, but was immediately nipped by the cornered fish and fled. When the native tried to grab it he was attacked and bitten on the hand. The man was treated at a hospital. The fish escaped when the tide rose.

Doctor: "You must have plenty of fresh air, what is your occupation?" Patient: "Parachutist."

"WELLS FARGO"

Paramount's epic drama of the building of the West. A truly great outdoor picture—a picture that ranks with "Covered Wagon", "Birth of a Nation" and "The Plainsman" of last year. The management personally endorses this picture, knowing you will all thrill to its stirring story and scenes!
